Report From Columbus Indicates That State Department Has Given Up As Hopeless Its Effort in Ferreting Out Roscoe Case.

Say That Testimony of Two Roscoe People Was Not What Was Expected, So Give Up Attempt At Taking All the Testimony.

Have the state fire marshals given up the hope of finding the fire bug who has been terrorizing Roscoe residents for the last several weeks with his depredations?

After weeks of investigating the fire marshals have been unable to unearth anything that would lead to an arrest it is claimed. In Columbus Friday night information was given out to the Ohio State Journal that "not much headway was made in the case, and the plan of taking all the testimony in the village was abandoned after Mr. and Mrs. Fred Landman had been examined and nothing definite extracted from either."

Frank B. Zuber deputy fire marshal and his two stenographers has returned to Columbus and are evidently waiting for another file The State Journal says: "Frank B. Zuber and his two stenographers has returned from Roscoe, and the authorities are now wondering how long it will be before something breaks forth."

YOUNG WOMAN INSULTED BY MASHER ON STREET

Followed Girl From Theatre and Intercepted Her in the Dark Trying To Force His Attention Upon Her

There seems to be one of those so called "masheers" hovering about in the city trying to force his attentions upon young women and girls.

Thursday evening a girl employed as domestic by a family on South Fourth street was accosted by a man in front of the Commercial bank. The man had followed the girl from one of the picture shows and hid behind one of the large pillars in front of the bank. When the girl reached the bank the man stepped out and stopped her. He seized the little daughter of the girl's employer, who had been to the picture show with the maid,

and inquired of the maid if that was her little girl. The girl said no, and then the man asked if he might escort her home. She replied that he could not, whereupon the man asked if he could see her the next night. The girl again emphatically said no and taking the child in her arms started to run home. The man made no attempt to follow her.

The girl has complained several times of men following her but this was the first time that any man has ever stopped her on the street. The girl described the man as being quite large. He wore a black stuff hat and a gray overcoat

WOODMEN TALK OF NEW RATE

Permanent Organization Of National Assembly Effected.

Minneapolis, Feb. 21—Permanent organization of the National Woodmen Assembly was effected and plans for bringing about readjustment of the rates adopted recently by the local camp at Chicago occupied yesterday the time of the insurgent faction, which has been in session here for two days.

The assembly adjourned last night, but the members of the executive committee appointed at the session this afternoon may remain in the city until tonight to make further plans for the re-rating campaign.

Incidental to the discussion of resolutions, the charge was made that high officials of the order were leagued with old line insurance companies to disband the order.

The resolutions as adopted attack the officials of the head camp but declare in favor of a meeting of the officials and the insurance leaders in efforts to obtain a rate readjustment.

HORSE FALLS ON THE ICE

A horse hitched to the Gamble grocery delivery wagon slipped on a patch of ice on Main street Saturday morning and became tangled in the harness in such a manner that it required the services of several men to get it to its feet again. The animal was in no way injured and after being hitched up again was able to continue on its way.

GIVE CONCERT AT WALHONDING

Large Crowd Hears Interesting Program Friday Evening

A very clever and entertaining concert was given at Walhonding Friday evening by four very talented young people of Columbus, who have just recently formed themselves into a concert company. The program consisted of readings and musical selections, all extremely well rendered and well received by the audience. The company is under the management of Mr. Warren E. Barnett, reader and monologist, who gave several clever and humorous selections. He was assisted by Miss Jessie Mansfield, contralto soloist, Warren C. Bredendick, violinist, and Miss Mildred Howard, accompanist. The program was thoroughly enjoyed by a large audience, which was profuse in its applause for the talent of the young people.

Ice in Gorge Too Loose to Permit Dynamiting

SEERS GOT \$20,000 IT IS CHARGED

Men Who Hypnotized Women Then Stole Money Are Indicted

THE SAME OLD STORY AGAIN

Lon'sville, Ky., Feb. 21—Indictment of a clairvoyant here yesterday on a charge of swindling two women out of \$2,300 revealed a series of incidents by which women are alleged to have lost various sums which the police believe will total \$20,000 by a system featured by its lack of plausibility. Promise of health and wealth was the lure.

Urial Buchanan, the clairvoyant, and his manager, Jack Graham, also indicted are thought to have left the city last Saturday.

Woman Seer Also Gave Following the announcement of the indictments yesterday, information reached the police of the disappearance of a woman clairvoyant, through complaints of two women that they had been swindled by her to the extent of \$10.

Buchanan, it is said, had many methods, principal of which was his instruction to a woman to put all her money into a chamouis bag and hang it around her neck. He promised through his powers she would find herself fabulously rich and cured of all ills. He would then hypnotize them and when they next saw the chamouis bags they were filled with paper.

Under His Power Five Weeks Mrs. Viola Grey, the first complainant, saw Buchanan primarily because of ill health and she became attracted from the first by his instructions.

She said: "For five weeks I have been completely under his power and if he had told me to jump into the river I believe I would have done it."

Lockender Sprague reported Friday night that the river in both upper and lower pools was about stationary, with the river clear of ice from above this city to Marietta."

The Tuscarawas, Walhonding and Muskingum rivers at Coshocton are remaining stationary Saturday and unless there is a general thaw or heavy rain no immediate danger is expected. Up the valley toward Warsaw there is much damage expected sooner or later. The big ice dam will have to move and since dynamite is not effective the residents in that neighborhood feel that the ice will go on taking with it many bridges, and some homes.

RIVER IS BACK OFF THE ROAD

Three Gorges Cannot Be Moved And Danger Is Imminent

RAIN NOW WOULD BE DISASTROUS

Big Ice Dam in Muskingum Threatens R. R. Bridge.

Efforts to dynamite the big ice gorge in the river just above Warsaw were useless Friday afternoon because the ice is loose and the dynamite had no effect on it. After several fruitless attempts to move the ice the method was given up.

The ice is so loose that the dynamite goes through it making only holes here and there and does not move the gorge as a mass.

Several attempts Friday were made to move the gorge in Muskingum river near the Fred Olinger farm at Rock Run, but that dam too refused to move. The gorge there extends from Rock Run nearly to Dresden where it ends and is gorged up again near Ellis station. A dispatch from Zanesville Saturday says "In an effort to dislodge the gigantic ice gorge formed around the C. A. & C. railroad bridge at Ellis Friday, dynamite was used by employees of the railroad, but without appreciable effect. The gorge is menacing the bridge."

"Considerable ice moved out of the upper pool of the Muskingum river Friday, but the gorges were practically undisturbed. Between Gilbert Station and the new dam there is a big gorge and a new one has formed near the A. E. Tile works."

"The dynamite was used Friday with the view of clearing the ice from the railroad bridge at Ellis, where the largest gorge is formed."

"Lockender Sprague reported Friday night that the river in both upper and lower pools was about stationary, with the river clear of ice from above this city to Marietta."

EFFORT IS MADE FOR A COMPROMISE

Leaders In Con-Con Want Liquor Question Discussed Of.

FEAR DEBATE WILL BE LONG

Columbus, O., Feb. 24—Efforts were started yesterday between contending elements in the constitutional convention to reach a compromise on the liquor license proposition. President Bigelow, E. W. Doty of Cuyahoga, E. L. Lamson of Ashtabula and other leaders, including E. B. King of Erie, advocate of the majority report, of the liquor committee, and J. J. Winn of Deleance, advocate of the minority report, expressed the opinion that liquor issues should be immediately disposed of and the way cleared for action upon other propositions.

It was apparent that unless steps were taken to settle the points at issue the debate on the liquor question, might continue for weeks, despite the argument between the leaders that a vote may be taken next Wednesday.

Electors May Have Say. The compromise suggestions advanced today strongly indicated that a license proposition would be submitted to electors. It was suggested by Delegate H. M. Crites of Pickaway county that common ground could be reached by the two sides if the minority report was taken and the limitation of one license to each 1,000 population eliminated.

The minority report of the liquor committee, which has been approved by the delegates opposed to the King proposal, provides the license for the liquor traffic with the alternative proposition of present condition.

This proposition has been urged by Wayne B. Wheeler, superintendent of the Anti-Saloon league, in reference to the King proposal and has been made the object of the fight of the temperance delegates.

Want Compulsory License. Crites pointed out that the license advocates supporting the King proposal have emphatically declared that all they want is compulsory license, with all restrictions and restrictive powers left to and vested in the general assembly.

Crites has submitted to the dry advocates his compromise and received a qualified approval with the promise that his proposition would be considered as a possible common ground. He declared that if the "dry" advocates were sincere in their demands for greater regulation and not seeking to have the minority report adopted with its restrictions just as a means of arraying liquor dealers themselves against it with the drys as a means of defeating all license when they could accept the proposition without unfairness.

Reason of Minority Report. The minority report was suggested by Crites, he stated, because of the criticism against the phraseology of the King proposal and the charge that because of ambiguity there was the possibility of "steepers."

Home rule for municipalities of the state was provided for yesterday in a proposal submitted to the constitutional convention by William Worthington of Hamilton county. The proposal provided that all municipalities should have the first right to frame their own charters to the fullest extent of absolute home rule.

They may upon petition of 10 percent of the electors hold a referendum election to determine the acceptance or rejection of any charter measure passed by the general assembly for its government.

The Worthington proposal provided full right of full police power, control of public schools, libraries and other institutions and public ownership of public utilities.

THINK SUICIDE ONLY HOAX TO ESCAPE THE PUNISHMENT OF LAW

Man Posing As Salesman For The American Art Works Believed To Be Working Game on Western Police. Clothes Found On Pier

When Wanted For Passing Bogus Drafts, Evidence Is Found Leading to Belief That He Took His Life. Name Card in Pockets.

That L. D. Hines, a traveling salesman for the American Art Works of this city, did not commit suicide by jumping into the Yadkin river near Spencer, N. C., a few weeks ago as was reported then, but arranged evidence that would lead to that belief so he could escape being arrested on the charge of passing bogus drafts, is the gist of a news story received here by a local man Saturday from Spencer, N. C.

Several weeks ago the report was received here that Hines had jumped into the Yadkin river. His clothing had been found on the pier of a bridge. In the pockets of the coat were found several cards bearing the inscription: "Mr. L. Devault, Hines, representing the American Art Works of Coshocton, O."

Hines is alleged passed several worthless drafts on some western manufacturers and business men and he was wanted by the police of several western towns. It is the belief in Spencer that Hines attempted to convey the impression that he had committed suicide to throw the officers of the law off his trail after he discovered that his game was known.

Preparations are being made in Spencer to dredge the river in an attempt to find the body. The theory that the suicide was a hoax has been strengthened by the gate keeper of the bridge off of which Hines was supposed to have jumped into the stream.

Strenuous efforts are being made by the police of Spencer and the county officials to determine the true state of affairs. In the meantime the police of cities all over the country are looking for Hines to bob up at any time and he will be placed under arrest immediately if he does.

SALE WAS SLOW. The engine on Pennsylvania train No. 6 became disabled at the local station on account of a lack of steam in the boiler. The train was late getting in, and when it did arrive, was barely creeping along. Although the steam was low the engineer pulled the train out of the city very slowly. He said that he would run it into Danville if possible, but he thought that a new engine would have to be sent for before they proceeded much farther.

TICKETS FOR JUMPING JUPITER GOING FAST

Richard (Himself) Carle and Edna Wallace Hopper in "Jumping Jupiter" will be seen in Coshocton Tuesday by the Coshocton Trolley Co. The play is a capital house judging from the way the seats sold at the advance sale which started Saturday morning at 9 o'clock. Before the box office opened the foyer was filled with waiting purchasers and by 10:30 almost three-fourths of the tickets had been sold. The balcony has been cleared out practically. In the down-stairs section there are a few seats in the rear rows and at the side of the house. Almost every seat in the center of the house is taken.

Richard Carle is recognized as being one of the foremost comedians of the American stage and he has a capable assistant in Miss Hopper. "Jumping Jupiter" is a rip-roaring comedy of the best sort and has been pleasing all America for the last two seasons. Several Coshocton people who saw the company at the Southern theatre in Columbus last season will testify for its excellence. It is far the best show that has come to Coshocton to far this season and as far as is known is the best that will be here.

NEEDS COIN TO OIL WHEELS OF JUSTICE

Hogan Will Ask For Emergency
Appropriation.

Columbus, O. Feb. 24. — Attorney
General Hogan and Prosecuting At-
torney Turner will make formal re-
quest to the state emergency board
for funds with which to prosecute
the bribery cases against senators,
representatives and others indicted
nearly a year ago.

Mr. Hogan himself is a member of
the board, and with Mr. Turner,
agrees thoroughly in the proposition
that the need of more money is an
emergency within the meaning of the
law.

The question may be laid before
Governor Harmon on his return to
the executive offices today. He prob-
ably will be asked to call a meeting
of the emergency board as soon as
practicable, to take action.

Without additional funds the state
will be seriously handicapped in the
trials which are to start March 4.
Although the general assembly, after
a fight last spring, appropriated
\$5,000 for the use of the attorney
general, there is little left in this
fund. The state already has spent
more than \$4,000 in the bribery
cases.

When it is remembered that the
defense in these cases has appeared
to be able to command practically
unbounded resources, the seriousness
of the situation from the state's
standpoint may be seen. The pros-
ecutors are extremely unwilling to
enter what is certain to be a hard
legal fight, seriously handicapped by
lack of funds.

by Mayor Kelly and a delegation of
citizens of El Paso who asked Secre-
tary Stimson to send American troops
into Juarez to preserve order and
protect Americans. Secretary Stim-
son replied it was impossible under
present conditions.

In a dispatch from a government
official on the border, one not in the
diplomatic service, it was reported
that General Geronimo Trevino in
Chihuahua had turned to the aid of
the insurgents. The dispatch read:
"Have reliable information that
General Orozco will join the revolu-
tionary forces of General Geronimo
Trevino and has agreed to accept
provisional presidency of Mexico."

This dispatch, which speaks of
"the revolutionary forces of General
Trevino," is the first indication that
the staunch old federal general who
stood by Diaz when his reign was
trottering and was later accepted by
Madero, had turned to the insurrec-
tors.

The Mexican embassy had no ad-
vices and no official there cared to
make a comment. The state depart-
ment received no confirmation and
was inclined to treat the dispatch as
a report of a rumor.

Control Federal Troops.
A coalition between Generals Oroz-
co and Trevino is looked upon here
as fraught with great consequences.
General Trevino was last reported in
Monterrey in control of the military
in the northeastern part of Mexico,
while General Orozco was operating
in the northwestern part. "These two
generals hitherto controlling practi-
cally all federal troops in the north-
ern half of the country might, it is
believed, completely cut off the north
from the south, isolating Mexico City
and its immediate vicinity from con-
nection with the United States.

The rather ambiguous wording of
the last sentence of the last dispatch
regarding the provisional presidency
was interpreted among Latin-Ameri-
cans here in two ways. The major-
ity declared it was intended to mean
that General Trevino, rather than
Orozco, had agreed to accept the
provisional presidency.

The El Paso delegation protested
against any reduction of the border
patrol. A large cavalry force was
necessary, they said. The delegation
also pleaded for leniency in the case
of Lieutenant Fields, who took a de-
tachment into Juarez on a trolley
car by mistake.

Lieutenant Fields will be tried at
San Antonio. The war department
was at first disposed to condone the
offense, as it arose from a mistake
on the part of the young officer as to
his location, but it has been finally
decided that for the sake of the ef-
fect upon Mexico and as an indica-
tion of the purpose of the American
government strictly to observe the
neutrality laws, not only in arresting
Mexicans who cross the line with
arms, but in applying the same rule
to Americans who offend. It was
necessary to make an example of
Lieutenant Fields.

REBELS ANNIHILATED

Are Lured to Certain Death in
Attack on San Pedro.
Mexico City, Feb. 24.—A telegram
from Torreón tells of a terrible bat-
tle at San Pedro. The town was sur-
rounded by 1,000 Vasquistas under
command of Colonels Argumedo, Mu-
rillo and Escalada. There were 400
federalists guarding the town.

The rebels attacked on all four
sides of the entrenchments. Colonel
Triana, who had posted his men in
front, shouted, "Abandon your gat-
ling and retreat to the plaza." This
was a ruse and the rebels, who were
deceived, charged to and fro with
fierce yells. Suddenly, when they
were half way down the street, the
federals came out of doors behind
the rebels and others and poured a
withering fire on them from the tops
of houses. The rebels were mowed
down from in front and behind and
in 15 minutes 300 of the Vasquistas
had been slaughtered. The federals
lost only one man.

Compromise on Probe.
Washington, Feb. 24. — Democrats
of the house have compromised on
the money trust investigation, the
question which has agitated the par-
ty for so many weeks and which will
come up today for final determina-
tion. Opponents of the Bryan plan
for an investigation by a special
committee insist that the compro-
mise is one of phraseology only,
while Representative Henry, chair-
man of the rules committee, who led
the fight for an inquiry by a special
committee instead of by standing
committees of the house, claims a
victory.

BREAKS UP A COLD AND CURES GRIPPE IN SEVERAL HOURS

You can surely end Grippe and
break up the most severe cold either
in head, chest, back, stomach or
limbs, by taking a dose of Pape's Cold
Compound every two hours until three
consecutive doses are taken.

It promptly relieves the most miser-
able headaches, dizziness, head and
nose stuffed up, feverishness, sneez-
ing, sore throat, mucous catarrhal dis-
charges, running of the nose, sore-
ness, stiffness and rheumatic twinges.
Take this harmless Compound as
directed, without interference with
your usual duties and with the knowl-
edge that there is no other medicine
made anywhere else in the world,
which will cure your cold or end
grippe misery as promptly and with-
out any other assistance or bad af-
ter-effects as a 25-cent package of
Pape's Cold Compound, which any
druggist in the world can supply.

Pape's Cold Compound is the result
of three years' research at a cost of
more than fifty thousand dollars, and
contains no quinine, which we have
conclusively demonstrated is not ef-
fective in the treatment of colds or
grippe.

ASKS BIG NAVY TO KEEP PEACE

President Says Two Battleships
Needed Each Year.

DEPLORES ECONOMY STREAK

Argues Before Navy League That
Two Fleets, One For Each Sea-
coast, Are Necessary Until Comple-
tion of Panama Canal Makes Their
Mobilization Easier — Would Wil-
lingly Abolish Expensive Navy If
Era of Peace Was Near at Hand.

Washington, Feb. 21. — In an ad-
dress before the convention of the
navy league of the United States,
now in session in this city, President
Taft sounded a warning against the
Democratic attempt to reduce the
size of the battleship fleet. Until the
Panama canal is completed congress,
he declared, should provide for two
battleships every year. Until the
waterway is finished, in the presi-
dent's opinion, the United States
really needs two navies, one for
each coast, and it would be danger-
ous for congress, he added, to econo-
mize by cutting down the naval ap-
propriations before the canal is
opened.

"I am in favor of a good strong
navy," Mr. Taft said; "a navy which
we are able to maintain, a navy
which will make our reasonable de-
mands on other countries respected.
I don't think the time has come for
us to economize with respect to a
navy. A navy is an expensive busi-
ness, so is an army, and so is war;
and the expense of the three is a
good reason for abolishing war. If
there were no other reasons. But
until war is abolished we have to
meet the situation, and we should be
lacking in patriotism, in foresight
and in common sense unless we do.
I sincerely hope, therefore, that this
congress will see fit to follow the
congresses which have preceded it
in giving us at least two battleships.

Two Excuses For Canal.
"We have built the Panama canal,"
he continued, "We have built it for
two reasons. We have built it in or-
der that the east and west coasts of
our country may be near together
and we may make one navy serve
them both. At present, if we were
to follow the logic of the situation,
we ought to have two navies. The
construction of the Panama canal
will double the efficiency of the navy
we have. When the canal is well
constructed so that the navy can go
through without trouble, then we can
confer with these gentlemen who are
in favor of economy in the navy and
see how far we can dispense with
the present expenditures to sustain
that power, but for the present we
ought to keep up our construction
because battleships get out of style."

Mystery Surrounding Deaths of
Eight Babies Cleared.

Woman Employed at Brooklyn Nur-
sing and Infants' Hospital, Whose
Strange Actions Attracted Atten-
tion, Breaks Down When Police
Threaten to Take Own Baby From
Her—Dropped Oxalic Acid in 16
Bottles, but Did Not Finish Task.

New York, Feb. 24.—After a two-
hour interrogation by the police,
Winifred Ankers, an attendant at the
Brooklyn nursing and infants' hospi-
tal, broke down and confessed that
it was she who had put oxalic acid
in the milk prepared for the babies
in the hospital, causing eight deaths
and four sicknesses since Monday.
Her purpose, the girl said, was not
to kill the children, but to make it
appear that nurses in the hospital
against whom she had a grudge were
not taking proper care of the chil-
dren.

Miss Ankers has a baby of her
own in the hospital. He is not sick.
The police brought her to the point
of confession by threatening to take
her baby away, whereupon there was
a hysterical outburst, in which the
young woman sobbed out her story
of how she had dropped the oxalic
acid into the milk bottles. District
Attorney Cropsey was notified of the
girl's statement and promptly sent
Assistant District Attorney Warbar-
ton to the nursery, where the girl
had been questioned, to take her evi-
dence against herself down in legal
form.

Has Been Under Suspicion.
Since the case of the eight dead
babies was called to the attention of
the authorities, Miss Ankers has
been under suspicion.

In her statement to the police Miss
Ankers said that on Saturday, at the
time she dropped the oxalic acid
into the milk bottles, there were 30
bottles of milk in the icebox. She
said she removed the stoppers of 14
or 15, she thought, and had dropped
the acid in. When she had got this
many done and the stoppers re-
placed, she heard someone coming
and stopped for fear of detection.

Enlarging on her reasons for feel-
ing bitter toward the nurses, she
said they had snubbed her because
she was a poor girl, and that this
feeling, which had been coming on
for months, had finally grown so
strong that it was her one thought
all day long how she could get even
with them.

Scene from "Jumping Jupiter" at the Sixth St. theatre Tuesday Feb. 27

IN STAGELAND

Richard Carle in a New Musical Comedy.

At last we are to have the popular agitator of laughs, Richard (Himself) Carle with us in "Jumping Jupiter" at the Sixth Street theatre Tuesday, Feb. 27th.

Perhaps none of the funny men of the stage are more cherished by playgoers than this eccentric man of the clog and the elastic physis, comically lachrymose voice and almost always tentative manner. Certainly no other funnier even remotely approached Carle's method of putting laughs over the footlights, whether with a song, a dance, a quip or a

quirk. Report has it that "Jumping Jupiter" will rank in its laugh values with the former stellar mediums of this comedian and that his supporting company surpasses in quality any of his former rosters. In Boston, where Carle has just finished a two months' run, it was the greatest success of the season. Mr. Carle elaborated "Jumping Jupiter" from a well known farce by Sydney Rosenfeld and his skill in fitting himself with parts that best exploit his own characteristic talents is so well known as to guarantee that he will be seen at his best in jumping Jupiter. At the same time he has generously provided all his associates with numerous opportunities to shine at their best.

Karl Hoschua, composer of "Madame Sherry" has fitted "Jumping Jupiter" with an equipment of musical numbers that do credit to his melodic invention as well as his reputation as a composer of popular music. The big song hit of the show is "Little Girl I Love You." This noted company is headed by Edna Wallace Hopper (specially engaged) who will be seen in the best role that has fallen to her lot since "Floradora."

Sore Throat Not a Trifling Ailment

Almost every one has had sore throat—will have it again. It is one of our most common ailments and, because it is so often looked upon as a small matter, requiring little or no attention.

On the contrary it is a very serious affliction because every person with Sore Throat is in danger of Tonsillitis, Quinsy, or Diphtheria and other serious maladies. In fact these diseases are almost invariably preceded by Sore Throat.

The air we breathe, the food we eat, the liquids we drink, all pass through the throat, and if that is diseased infection may be carried to every part of the system. To cure a Sore Throat often means to prevent Diphtheria or one of the other more serious throat diseases. Curing Sore Throat is TONSILINE's special mission. It is made for that—designed for that—good for that one purpose. TONSILINE is the one and only Sore Throat cure which is sold over a large part of the United States.

TONSILINE is so well and so skillfully prepared as a Sore Throat cure that the first dose gives decided relief, and a very few doses cure.

Remember—Sore throat is Nature's danger signal. Keep TONSILINE in the house and be on the safe side of Sore Throat.

AUTOS MADE LUXURIOUS

American Machine Perfect—ed Mechanically—Time Spent Decorating

Now that the American automobile has been so perfected mechanically that it meets cars of European manufacture in successful competition on the continent, and for that matter, all over the world, builders are turning their attention more than ever to the decorative side of their business. The conspicuous characteristic of the high-grade cars at all of this year's shows, is the evidence they give of thoughtful attention to beautifying them and increasing their comfort and the luxuriance of their appointments.

Not only has American ingenuity and artistic ability been set to work in these directions, but American enterprise has gone abroad, in at least one case—that of the Stevens-Duryea—studied what the builders are doing there, and brought to this country all the foreign ideas that seemed worth while, adapting them to the special needs and tastes of motor-car owners here. New standards for fine cars have been set by the big automobile shows, this year, and it is predicted that the influence of women automobilists, which is plainly evident in this development, will be more and more strongly felt from now on.

Particular interest was excited at the Chicago pleasure car show as at the Garden show in New York by the new convertible or "two-purpose" body—a car that may be used open or closed at the rider's will—and of a very luxurious limousine which was named the "Olympic" as representing the highest development yet of comfort, beauty and richness of appointments. Also, the scheme of distinctive colorings long talked of by many factories and permanently introduced this year by the Stevens-Duryea car, caused a good deal of comment.

It is noteworthy, as indicating the growing appreciation of the value of the artistic quality in every utility, that for cabinet work, upholstery, and finish, the fine American automobile of today suffers nothing by comparison with European cars.

PENNSY PAID SIGNAL HONOR

A signal honor has been paid the Pennsylvania railroad by the American Museum of Safety in presenting to it a medal signifying that the company has done more for the protection of its employees than any other company during the past year. In the fall of 1910 experts from one of the large accident insurance companies was employed, who, in company with the representatives of the motive power department inspected all the larger shops. Following this safety committees were organized on all divisions of the road. As a result the number of serious injuries per thousand shop employees was reduced from 8.7 in January, 1911, to 2.2 in October.

This effort of the Pennsylvania in common with many other large railroad corporations, to reduce the number of accidents among the employees, is prompted not only by humanitarian motives but by considerations of business expediency. It does not make for efficient operation when valued employees are continually being killed or injured, and when their places must be taken by less experienced men. A company is maintaining the integrity of its working organization when it safeguards by every means in its power the health and welfare of its employees.

STATE TO BUILD WAGON ROADS

If the Voters Ratify the Lampson Bond Amendment

SLOGAN, "GET OUT OF THE MUD"

Proposition Leaves Local Funds for Use by Counties and Townships. Former Senator Alsford Says Bond Plan Will Preserve Popular Low Tax Rate—People Should Get Better Roads at Once.

Columbus, O., Feb. 23.—In an interview given out here today, Superintendent W. A. Alsford of the Ohio Good Roads Federation explains the terms of the Lampson proposal adopted by the constitutional convention.

The proposal modifies the section which limits the state's debt contracting power to \$750,000 by authorizing the general assembly to contract debts and issue bonds for construction of a state system of good roads. The bond limit is fixed at \$50,000,000. The specific language of the proposal so adopted is:

"Provided, however, that the general assembly may contract debts and authorize issue of bonds to an amount which in the aggregate shall not exceed \$50,000,000, for the purpose of constructing, improving, maintaining, repairing and rebuilding a system of intercounty wagon roads throughout the state, not to exceed \$10,000,000 in such bonds shall be used in any one year, and there shall be levied and collected annually, by taxation, an amount sufficient to pay the interest on said bonds and provide a sinking fund for their redemption at maturity."

"Such wagon roads shall be determined under general laws, and the cost thereof shall be paid by the state."

"The provisions of this section shall not be limited or controlled by Section 6 of Article 13."

Commenting on the action of the constitutional convention, Mr. Alsford, a thorough student of the highway problem, says:

"The passage of the Lampson proposal by the constitutional convention marks the beginning of an epoch of progress and prosperity for Ohio. It is the first time that the people of the state are alive to the fact that the building of good roads in a systematic manner is the most vital factor for progress at this time."

"We are all progressive these days, but to me progress and good roads are inseparable, for the reason that road roads touch every phase of the life of the state. They are the life of the city and the country together in thrift and industry, intelligence and patriotism. The convention, by adopting the proposal in its present form, has taken advantage of their form of government, called the state, and through it borrow money at a low rate of interest, than to make a direct levy on the people."

"The idea of maintaining a low tax rate of approximately 1 per cent seems to have been tentatively adopted by the people of the state. Both the state and the county are declared for the enactment of a low rate law; both general assemblies of 1910-11 enacted such a law, so that any attempt to make a large levy for road purposes would be regarded as an attempt to destroy the 1 per cent idea in the state. For this reason it was deemed advisable for those interested in the good roads movement to devise a way and means to obtain the necessary funds by a method that would not necessitate interference with the low rate program; the only solution to this problem appeared to be by proposing a bond issue for a long term of years, at a low interest rate. The incorporation of the sinking fund plan into the proposal was a commendable act, as it fixes a definite method for the retirement of the bonds. Under the provisions of the Lampson amendment, if adopted by the people, the requirement of the work that would be necessary to carry out the plan of a low rate law, which would begin the issue of state bonds in a sum of not in excess of \$10,000,000, and probably not more than \$5,000,000, with which to begin the work. The work would be carried on by a levy to cover both the sinking fund and the interest charges, which levy for the first five years would not be in excess of three-tenths of a mill. Thus the rate of levy to carry out this gigantic improvement would not affect the present rate limitation laws now on the statute books. The proposal states that every one so as to the wagon roads and also the distribution of their cost, shall be left to the general assembly. This provision is a wise one on the part of the convention, as the requirements of the counties will be different not only next year, but in the years to come, and it is not the province of the constitutional convention to enter the details of local government. It is clear that the proposal provides for a definite sum of \$50,000,000 that shall be definitely expended in the improvement of a wagon road system throughout the state. No money recently expended in the state of Ohio would constitute this provision in any other manner than one of perfect fairness to all counties in the construction of such a system. The unit of this system is the state, and not the separate counties. The system is to reach all of the counties of the state and connect them, and every one so as to form continuous roads throughout the state. I believe that the people of the state realize that the investment of \$50,000,000 during the next 10 years will be the greatest asset ever added to the state by internal improvement; no one denies that it will increase farm values, give employment to men, stimulate many kinds of business and bring an era of prosperity throughout the state. Every friend of progress will be a friend to the good roads proposition."

The most important part of the proposal in this new program is the stipulation that the state pay all of the costs of these roads, thus leaving to the counties and townships the control and use of county and township road funds for construction and up-keep of local roads."

LOW TEMPERATURES POSSIBLE DAMAGE TO THE PEACH BUDS

Dormant buds of some varieties of peaches are killed when the temperature of the air falls to about 12 to 18 degrees below zero.

During January, 1912, the temperature was 37 degrees below zero at Milligan, Perry County, and was over 30 degrees below zero in low valleys in parts of Portage, Columbiana, Gurnsey, Hocking, Athens and Ross counties.

The temperature was more than 15 degrees below zero in nearly all sections of the state except along Lake Erie, in parts of the Ohio river valley, and on some of the highest points in the state.

The lowest temperature occurred generally on the morning of the 13th when the air was clear and comparatively still. At such times the air outside the large cities always gets colder than in town, because in the cities the cooling by radiation is largely prevented while the country the radiation of heat from the surface of the ground is very rapid and this surface, and the air in contact with it, gets very cold.

The valleys are always colder than the hills; also, on such nights, the air that has been cooled on the hills slides down into the valleys and is replaced by horizontally moving currents of warmer air.

On January 13, the temperature was 10 degrees at Hiram, Portage county, but was 30 degrees at Garrettsville only a few miles away but in a valley, 235 feet lower. At Bangorville, Richland county, the temperature was 10 degrees and at Canton, Morrow county, 370 feet lower it was 21 degrees.

On one of the hills near Philo the temperature was 7 degrees, while down the river it was 27 degrees. At Somerset, Perry county, the temperature was 10 degrees, while at Milligan in the same county it was 37 degrees.

Other high level points showed temperatures from 10 to 15 degrees below zero, hence it is probable that peach orchards located at or near the highest points of land escaped complete loss, while all those at lower levels were killed.

The temperature was only 5 degrees below zero at Toledo and Sandusky, and only 8 below zero at Cleveland. The record at other stations outside of the cities, however, and only short distances from the lake, indicate that the temperature was close to the critical point all along the lake shore.

The temperature at the weather bureau office in Columbus at an elevation of 173 feet above the street was 5 degrees, at the Kiosk, in the state house grounds, it was 8 degrees and on the Ohio State University

HANDS WOULD BURN LIKE FIRE

Could Lay Pin in Cracks. Four Long Years of Eczema. Only Relief in Scratching. Used One Set of Cuticura Remedies. Hands Entirely Well.

"I can truthfully say Cuticura Remedies have cured me of four long years of eczema. About four years ago I noticed some little pimples coming on my little finger, and not giving it any attention, it soon became worse and spread all over my hands. If I would have them in water for a long time, they would burn like fire and large cracks would come. I could lay a pin in them. After using all the salves I could think of, I went to three different doctors, but all did me no good. The only relief I got was scratching."

"So after hearing so much about the wonderful Cuticura Remedies, I purchased one complete set, and after using them three days my hands were much better. To-day my hands are entirely well, one set being all I used." (Signed) Miss Feta Naylor, R. F. D. 2, Spring Lake, Mich., Sept. 26, 1910.

No stronger evidence than this could be given of the success and economy of the Cuticura Remedies in the treatment of torturing, disgusting humors of the skin. A single hot bath with Cuticura Soap and a gentle anointing with Cuticura Ointment are often sufficient to afford immediate relief in the most distressing cases and permit rest and sleep when all else fails. Cuticura Soap and Ointment are equally effective in preserving, purifying and beautifying the skin, scalp, hair and hands.

Although Cuticura Soap (25c.) and Cuticura Ointment (50c.) are sold throughout the world, a liberal sample of each, with 25-p. book on the skin and scalp, will be mailed free on application to Potter Drug & Chem. Corp., Dept. 21, Boston, Mass.

BLACKMAILERS

When a man is lured into a place
by an attractive woman, who screams
loudly as soon as the door is closed,
without any advances on the part of
the man, and a second man claiming
to be her husband rushes in and fi-
nally is prevailed upon to accept \$500
for his wounded feelings—that's a
blackmail scheme called "the badger
game."

When a person is approached by
another who says they know some-
thing detrimental to the other, which
they will tell broadcast unless their
mouth is closed with a wad of money
—that's another form of blackmail.

When a merchant advertises in a
newspaper that he believes will bring
him some results; and then a solicitor
from another newspaper approaches
him, and as a final argument declares
that they have a large number of
stockholders who will not buy goods
of him unless his ad is in that paper;
and mayhap as extra coercion, a few
of the stockholders are induced to
drop around and tell the merchant if
he expects to hold their trade he
must "come across"—that's blackmail.

Or, when a merchant is solicited by
an advertising agent, who says that
if he does not advertise in a certain
paper, then that paper cannot "pro-
spect" him; and when that paper, after
failing to get the advertisement even
under such stress of circumstances,
then comes out with an inflammatory
article attacking that man's business
or character—that's blackmail.

Instances of this kind have been all
too frequent in Coshocton in the past
few years. They are all of the same
class; the newspaper game and the
badger game are birds of a feather,
one is no better and no worse than
the other. Public opinion condemns
both. Neither one has any place in a
Christian civilized, community and
both are detrimental to peace, prog-
ress and decency. The best treat-
ment for the blackmailer is a blow be-
tween the eyes. Drastic treatment is
necessary.

TANGLED.

Where are we at? Since Teddy's
speech, some of the New York papers
are declaring he is not a Republican
at all. After Taft got shoulders deep
in the reciprocity game last year
some of the papers, east and west,
declared that according to his pro-
tection principles, he was not a Re-
publican at all. Bryan says Harmon
is not a Democrat; Harmon says Bry-
an is not a Democrat. Wilson says
both ought to be knocked into a
cocked hat. And if these men be so
at fault, little is Smith, the common
people, to be blamed for trying hard
to decide whether he is himself a
progressive, a reactionary, a radical,
a conservative, or a baked potato.

The "Turkey Trot" Barred by Society

NEW YORK.—The "Turkey Trot,"
"Grizzly Bear," and even the
"Chicken Reel," the last word in the
dance zoo, may be all right in New-
port, but they don't go among real
society folk in New York.

That much has been learned in in-
terviews with several dancing masters
who number fashionable folk among
their pupils.

These teachers instruct in the va-
rious dances, but they won't allow
them in public receptions or parties.
Discussion of these dances came
through the announcement by the
committee on amusements and vaca-
tion resources of working girls that
the "turkey trot" and "grizzly bear"
must go. The dances are supposed to

have been originated by negroes of
the underworld. The stage got them
next, then society folk and then the
tough dance halls. Then the cry to
halt.

It didn't come soon enough, how-
ever, to stop the "chicken reel," which
W. S. Reeves, head of a dancing
school, at 2630 Broadway, originated.

"I originated the 'chicken reel,'" said
Mr. Reeves, "but I deny that it is im-
proper. It is the latest development
and has none of the features of the
'turkey trot' and the 'grizzly bear.'"

"I instruct in all three dances, but
I do not allow them to be danced at
my classes or my receptions. I dance
the chicken reel for a club dance in
Newport last summer, when I was
asked to get up something new."

In the "chicken reel" the partners
hold hands and take four steps for-
ward, happing the outer arms like
the wings of a chicken and rising on
the toes at the same time.

Then both stop and scratch like a
chicken four times with the right
foot facing each other.

RIGHT AND WRONG

Much as we disagree with the po-
sition of Delegate Marshall on the
good roads proposition before the
constitutional convention, we believe
his judgment is sound on the I. and
R. He is for the I. and R. but wants
a higher percentage than some of the
radicals are insisting on. The plan is
revolutionary of our present attitude
toward public affairs. It is practically
a reversal of a representative form of
government. Haste should be made
slowly, and a reasonable per cent.
should be held to, as the plan is to be
practically on probation. If it works,
we want it; if it doesn't work, we do
not want it, and that's all there is to
it. Marshall is right in demanding
that a reasonable percentage be
maintained, and 12 per cent. is not
it all unreasonable. On the matter
of the good roads however, we regret
his stand. The rural districts, he
says, are going to be against good
roads as planned. That is a revela-
tion. At nearly every gathering of
farmers you hear ringing resolutions
about better roads. Every farmer
knows that good roads add to the
value of each acre of his land. Mr. Mar-
shall is mistaken in thinking that the
whole fifty million of bond issue is
to be dumped on the market at once,
and then the state pay interest on
dead money for a long time; that is
not the way we understand the pro-
position at all. It provides that the
state shall issue up to fifty millions
of good road bonds as they may be
needed, limiting the amount to be
used in any one year. That sounds
fair. The city vote is for good roads,
and not because of automobiles
either, for a small percentage of city
folks own cars; but for the general
excellence of the plan. What town in
the state would go back to unpaved
streets, no matter what the cost of
paying? Not one. What farmer would
go back to the old mud road of last
year or the corduroy of last century,
after living along a fine gravel or
limestone pike? Not one. The good
road is the best civilizer of the new
century.

Everybody appears to be putting a
different interpretation on Roosevelt's
address. It must be fun to be able to
make 'em all sit up and take notice
whenever one has anything to say.

The world is one grand old news-
item. No sooner is the public in-
formed about the depth of the mer-
cury than the flood prognosticator
takes his position in the first column.

SAVED DAUGHTER'S LIFE

This Father Refused to Let His
Daughter Die.

Here is a story with a moral that
many parents might take to heart:
"My daughter was very pale, nerv-
ous, thin, and suffered with severe
pains in her back, so that we took her
out of school. Her flesh became blue
and she could not retain her urine. I
spent over \$100 for medicines, but
she grew worse. Finally I bought a
bottle of Thompson's Barosma and
she began to grow better right away.
Five bottles of Thompson's Barosma
made a complete cure, and today she
is a perfectly healthy girl. Thomp-
son's Barosma saved her life, for she
was failing so fast that death was
not far off."—Frank D. Meeder,

CASCARETS WORK WHILE YOU SLEEP

Salts, Calomel, and Cathartic Pills
are violent—they act on bowels
as pepper acts in nostrils.

Take a Cascaret tonight and thor-
oughly cleanse your Liver, Stomach
and Bowels, and you will surely feel
great by morning. You men and wo-
men who have headache, coated
tongue, can't sleep, are bilious, ner-
vous and upset, bothered with a sick,
gassy, disordered stomach, or have
backache and feel all worn out.

Are you keeping clean inside with
Cascarets—or merely forcing a pass-
age every few days with salts,
cathartic pills or castor oil? This
is important.

Cascarets immediately cleanse and
regulate the stomach, remove the
sour, undigested and fermenting food
and foul gases; take the excess bile
from the liver and carry off the de-
composed waste matter and poison
from the intestines and bowels.

Remember, a Cascaret tonight will
straighten you out by morning. A 10

clear head and cheerfulness for
months. Don't forget the children.

BIGELOW ENTHUSES OVER AGREEMENT

Declares I. & R. Proposal Good
and Will Be Adopted.

Columbus, O., Feb. 24.—Rev. Her-
bert Bigelow, president of the Ohio
constitutional convention, issued a
statement in which he declared
that the initiative and refer-
endum plank agreed to at the I.
and R. caucus is "a vast improve-
ment over the I. and R. provisions
of any state of the Union."

"On a percentage of petitions
higher than in any other state," con-
tinues his statement, "a proposed law
may be put upon the ballot without
first being presented to the legisla-
ture. But on a lower percentage
than in any other state a proposed
law may be first presented to the
legislature and then referred to the
people if the legislature fails or re-
fuses to pass it. This plan encour-
ages the use of the indirect or legis-
lative initiative advocated by The-
odore Roosevelt."

It will be adopted by the con-
vention without change and the people
of Ohio will endorse it by an over-
whelming vote.

"In the famous caucus, out of
which the friends of the I. and R.
came a united band, the victory of
the people was at last achieved."
Sixty-four votes, or four more than
are necessary to secure its adoption,
have already been pledged to the
caucus initiative and referendum pro-
posal.

VAPOR TREATMENT

For Catarrh, Colds, Coughs,
Sore Throat and Bronchitis.

Everybody knows that breathing
HYOMEI a few times a day through
the little hard rubber pocket inhaler
will in a short time drive out catarrh.
Many people regularly use the va-
por treatment at night in conjunction
with the inhaler, claiming that it has
tens results.

This is the vapor treatment: Into a
bowl three quarters full of boiling
water pour a scant teaspoonful of
HYOMEI cover head and bowl with
towel and breathe for five minutes the
soothing, healing, antiseptic HYOMEI
vapor. Try it when using HYOMEI
for any nose or throat ailment.

HYOMEI is guaranteed by C. E.
Anderson to put an end to catarrh, or
money back. A bottle of HYOMEI
costs 50 cents; a complete outfit,
which includes inhaler, \$1.00.

Medicine for the Blood

Is Needed Now

Impure blood is common in the spring, because
of the unhealthful modes of living during the win-
ter, and it is the cause of the loss of appetite and
that tired feeling, as well as the sores and eruptions
that occur at this time.

Be sure to take Hood's Sarsaparilla this
spring. It combines the great curative principles
of roots, barks and herbs, so as to raise them to
their highest efficiency in the treatment of all blood
humors, blood diseases and run-down conditions.
Get it today, in liquid form or in tablets called
Sarsatabs. 100 Doses One Dollar.

"I have taken Hood's Sarsapa-
rilla for a great many years, and
I think it the best blood medi-
cine in the world. I take it
both spring and fall. This last
winter and spring I was in very
poor health. I was weak and
had lost all my appetite and I
was all run down. As soon as I
got a bottle of Hood's Sarsapa-
rilla my strength came back and
my appetite returned. I am now
well and can go about my house-
hold work. I no longer have that
tired feeling." Mrs. Marion
Bruce, Cumberland, Me.

It has been our business for
years to make honest medicines
and to tell the truth about them
on our labels and advertise-
ments. Thousands recognize the
sterling merit of Hood's Sarsa-
parilla. They know that this
medicine is pure, clean, safe, and
that it has peculiar and un-
equalled curative and tonic vir-
tues. They take it with such
satisfactory results that they
have perfect confidence in our
house—our skill, our methods
and our representations. Made

Regular Meeting of Home Study Circle.

Mrs. Frank Foster was the hostess at the regular meeting of the Home Study circle of her home on South Ninth street Friday evening. Routine business was transacted and the following officers for the year 1912 were elected:

President, Mrs. Frank Foster.
First vice president, Miss Katherine Johnson.
Second vice president, Miss Alice Judd.
Reporter, Miss Emma Manner.
Secretary and treasurer, Mrs. Wendt.
Critic, Mrs. Gault.

The remainder of the evening was given over to the discussion of the works of William De Morgan. The discussion was led by Mrs. Gault and assisted by Miss Alice Judd. Mrs. William Shaw. Mrs. Gault gave a very good book review of De Morgan's "Somehow Good."

A very pleasant social hour was spent and dainty refreshments were served. The next meeting will be held in two weeks at the Carnegie library.

Mrs. John Kissner and Miss Rose Harris were guests of the club.

Miss Effie Treadway Wins Silver Medal.

A very successful Silver Medal contest was held by the members of the Roscoe Woman's Christian Temperance union Friday evening at the Roscoe Methodist Episcopal church. Every seat in the auditorium was taken and each of the six orations were unusually well given. After some discussion the medal was awarded to Miss Effie Treadway who delivered her oration on "The Tale of the Serpent" in a most pleasing manner. The judges for the contest were Rev. and Mrs. George Brewer and Miss Hosick. A most pleasant feature of the evening was the splendid musical program given by Miss Minnetta Gillin, Miss Ethel Leffler, Miss Louise Schott, Miss Estella Clark and Palmer Martin. The proceeds of the meeting amounted to \$13.

Following is the list of orations given Friday evening:

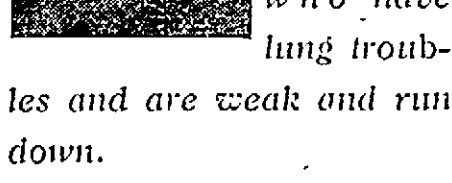

"Am I My Brother's Keeper?" Miss Hattie Funnell.
"Lisa's Divorce," Mrs. Akeroyde.
"New Recruits," Miss Susan Porter.
"Kindred Fires," Mrs. Whitehurst.
"Satantha as a Political," Mrs. De Moss.

THREE LICENSES ISSUED TODAY

Has the leap year fever struck Coshocton county just when the month of February is started on the last lap for the finish? There were more marriage licenses issued at the probate court Saturday than there have been in one day for many weeks. None of the applicants "stuck" Judge Ashman for the free license promised early in the year to the young couple applying for license where the young woman had "popped" the question, but it did look suspicious coming all in one day. The following licenses were issued Saturday:

Silas D. Pyle, 51, farmer, Bedford township; Clara E. Cullison, 52, Washington tp. Rev. C. R. Chilton named to officiate.

Alva L. Ricketts, 27, sheet mill worker, Tinway; Margaret B. McCoy, 21, daughter of Abner McCoy, Virginia tp. Rev. E. B. Senter named to officiate.

George Bickle, 21, farmer, Clark; Mabel M. Rodhe, 21, daughter of John Rodhe, Layland. Rev. Kern named to officiate.

LOCAL BANKERS ARE WITNESSES

The cashiers of the local banks, Messrs. Montgomery, Mayhew and Mills, will go to St. Clairsville, Belmont co. Monday, to act as witnesses in a law suit. A man named Chaney has been arrested there for obtaining goods under false pretense, or kindred charge and in his defense declared that at the time of the transaction he had money deposited in a Coshocton bank. It is said the local banks have been unable to find any record of the man either as a depositor or borrower. The court ordered them to bring their books, but as that would necessitate the closing of the banks they will go ready to give their solemn davy that Chaney never had a sou in a Coshocton bank.

JURY GIVES \$2 VERDICT TO NEW-COMERS DENTIST

A jury in Squire Abbott's court Friday evening returned a verdict in favor of John C. Calhoun for judgment against Chris Opheld in the sum of \$2 on an account.

Calhoun is a dentist-living in Newcomerstown. He claimed that Opheld's wife got some dental work done at his office in 1907 which amounted to \$2. Later he made her a set of false teeth which the Ophelds claimed did not fit and which, they claimed they did not accept. Soon after the teeth were made a \$2 payment was made on the account. At the trial Friday Opheld admitted that he had paid the dentist \$2 on account which would have bound the bargain on the teeth. The jury however did not consider the false teeth part of the transaction and returned a verdict ordered Opheld to pay the balance due on the first work done.

DR. PORTZ FILED ANSWER SATURDAY

In the case of Lucy Lower vs. Drs. Portz and Stephan for alleged malpractice, Dr. Portz filed his answer in common pleas court Saturday afternoon through his attorney F. E. Pomeroy. He claims that he was not engaged to attend the plaintiff only on the day of the accident when he administered the anesthetic and was not employed until about Sept. 28, 1910, when he was called into consultation with another physician. He claims he was not attending her regularly.

NEPHEW DIES IN HARRISBURG

Mrs. Wm. A. Geppert, of Danmar, received the shocking news Saturday morning of the death by pneumonia of the 11 months old son of her sister, Mr. and Mrs. Jacob Pomeroy, Harrisburg, Ill. The child is survived by its devoted parents and little sister Della May.

THREE REAL ESTATE DEALS UP AT KEENE

Real estate is booming in Keene. There have been three big deals the past week. Jesse W. Lawrence has purchased the one residence of Hilary Bell in the heart of the village, and will take possession April 1. Mr. Bell moving to the Turner property.

Mr. Lawrence was in Coshocton Saturday about putting in a gasoline engine and dynamo for the purpose of lighting his own electric lights. He will put in private water works and have both an sanitary convenience.

George Whetmore has bought the Robert Whetmore lot and will erect a cozy bungalow in the early spring.

Leni McCaskey has bought the Chas. Pea property and will move in from the Jesse Lawrence farm.

The Pennsylvanian Co. defendants in an action brought by T. Haight for damages, filed their answer in common pleas court Saturday. They claim they were not responsible for killing a cow owned by Haight.

EXECUTORS STUMBLER OVER TERMS OF WILL

Because they have stumbled over an item in the will, J. L. Bordenkircher and William Boyer, as executors of the last will of Wendel Bordenkircher have started a friendly suit in common pleas court against the legatees and heirs asking the court's help in placing the proper construction on the will.

The defendants in the suit are Wendel Bordenkircher, Catharine, Mary Michael, Julia Vincent, J. L., Emma and Margaret Bordenkircher.

By the terms of the will of Wendel Bordenkircher in item two, after giving to J. L. Bordenkircher a farm in Franklin township, of 80 acres, charged with the payment of certain legacies to the other heirs, and also with the payment of \$10 a year for the support of the widow, the will provides: "and in case neither one wants to take under the will the property is to be sold and one third of the proceeds to go to my wife and the balance to be distributed share and share alike among my heirs."

The will also provides that the personal property shall be sold and the proceeds used to pay the debts against the estate. The executors claim they have sold all the personal property but there is still a \$200 debt standing against the estate.

The executors are in doubt as to the exact construction that shall be placed on item two of the will. All the children except one, Wendel Bordenkircher are willing and desirous of not taking under the will and want the property sold and divided as so provided in the will. The executors are also in doubt as to what real estate shall be sold to pay off the debt as the legacies and the real estate bequeathed under the terms of the will are all special and comprise all the property owned at the time of Mr. Bordenkircher's death.

The plaintiffs suggest in their petition that in case either one of the children did not want to take under

the will, that is, if they were not satisfied with Wendel Bordenkircher's receiving the 80 acre tract and of J. L. Bordenkircher's receiving the \$0 acre tract and were not satisfied with the legacies given them, but desired to have the property sold, one third going to the widow and the other two thirds being divided equally among the children, then the real estate was to be held by the executors to be distributed.

The plaintiffs ask that the defendants answer and set up their claims so the matter can be settled and also ask the court to direct them as to the true construction of item two of the will. J. C. Adams represents the plaintiffs.

LOOKED LIKE MUTT AND JEFF

Two men whose names could not be learned engaged in a word war at the corner of Fifth and Main streets, this afternoon, but no blows were struck. It seems that the men had a few more drinks under their belts than they could conveniently carry; and so they decided that they would take their spite out on each other. One of the men was much taller than the other, and the two together put one much in mind of Mutt and Jeff engaging in one of their daily quarrels.

The curtain on the world's greatest drama will soon rise and hams and stars will have a chance to show their metal. Fans are anxiously waiting for the orchestra to start.

Players in the minor leagues who fail to return their signed contracts on or before March 1 will be placed on the ineligible list, according to President F. R. Carson of the Central League. This will probably bring some of the little "hold outs" to time.

If you won't play the other fellow's game he should not play yours. There should be reciprocity in foolishness.

In New York they are trying to figure out Charlie Faust's route to Marlin Springs, Tex. McGraw says walking will be good, but Faust says he will go through on a sleeper.

All good bowlers are not "high rollers," but they all roll high scores.

At last Abe Attell met more than his match in Johnny Kilbane. It was a long time coming, at that.

For approximately ten years Attell held his title undisturbed by any other feather weight in the country. Champions of so long an endurance are difficult to defeat.

Kilbane easily showed he was the leader's master. Quick as lightning, agile as a cat, Johnny kept after his opponent from going to going.

Fight critics say the Cleveland youth hasn't a knock-out punch. Maybe he hasn't, yet he has other qualifications to make up for this loss.

The only champion who has been and still is a strict church member, and who said as he was being carried by friends from the arena that he wanted to telephone his wife, Kilbane has other qualifications besides his great defensive ability.

The passing of Charlie Street will be regretted by most of the Washington fans, even though they are "ad Knight is coming. O'Day doesn't care.

Pitcher John Vowinkle of Oswego, formerly of the Newark and Buffalo clubs of the International league, has accepted terms with the Syracuse Stars, Chattanooga (Tenn.) club of the Southern league claims Vowinkle and is expected to contest Syracuse's claim.

St. Louis needs a first baseman and a leader with the stick like Stovall much more than it needs a pitcher like "Lefty" George. First base has been a tough problem for the Brown pilots for some time.

The Trolley Dodgers announce that all but three men have signed up and that the team is now ready to practice for the tug of war. The three "left-overs" are Downs, Smith and Kent.

The statement by Mordecai Brown, pitcher of the Cubs, that he is willing to be traded to any club except the Phillies is not understood by them. No one knows what grievance Brown has against the Quakers.

(Handed down to his grandson Noah and preserved by him in the Log of the Ark.)

"Swing at the ball that skippeth by thy knees; while at the ball that hurtleth by thy waist; but let the high ball go."

"The umpire is an abomination in the sight of all men; yet must he be respected lest he taketh thy coin or evicteth thee from the ball yard."

"He that striketh out Hans Wagner is greater than he that taketh a city; and he that fanneth Tyrus Cobb shall be king over men for a generation."

"He that loveth his wife feedeth and clotheh her; but he that taketh her to a ball game is foolish."

"I had thought, my son, that I had lived for many seasons; but Cy Young, who taught me the game, shall dwell in the land forever and forever. He shall see the slump of Habel; waivers asked upon Nineveh and Tyre; the spiking of Caesar; the base running of Bill Bryan and the war club of Theodore. Yet shall he still report in the springtime, saying ever that this time will be pitch the G. of his L."

Connie Mack's trend runs along piscatorial lines. His string includes a Pike, a Salmon and a Whiting. Roger Breshnahan hopes at least one of the above trio will turn out to be a scrapple.

Taken to Hospital
Mrs. Robt. Millan of Orange-st was taken to Columbus today where she will submit to an operation in one of the hospitals.

TO BUILD UNION STATION SOON AT BRINK HAVEN

Brink Haven is to have a union station to accommodate the T. W. V. & O. and the C. & A. C. Rys. both of which the Pennsylvania system owns. At present the stations are about a mile apart, but a new station is to be built where they cross, a big convenience for people traveling between Coshocton and Millersburg or Mt. Vernon.

Shocking Sounds
In the earth are sometimes heard before a terrible earthquake, that warn of the coming peril. Nature's warnings are kind. That dull pain or ache in the back warns you the kidneys need attention if you would escape those dangerous maladies, Drops, Diabetes or Bright's disease. Take Electric Bitters at once and see back-ache fly and all your best feelings return. "My son received great benefit from their use for kidney and bladder trouble," writes Peter Bondy, South Rockwood, Mich. "It certainly is a great kidney medicine." Try it. 50 cents at C. E. Pittsburg Live Stock

PITTSBURG, Feb. 24.—(East Liberty reports today as follows:
Steers \$1.00 to \$1.05
Hogs 6.25 to 6.50
Sheep 2.00 to 2.25
Lambs 3.50 to 4.00
Calves 4.50 to 5.00

Cattle.
Cattle receipts today were light—trade quiet. Feeding steady—no change in quotations. Market in the west still in very poor shape. Packers' needs small owing to Lenten influences. Local trades predicting a steady deal for Monday.

Calves.
Calf prices denoted higher rates today. Scant supplies and good demand boosted values. Only 15 calves came to hand—quality good. Sales were limited owing to meager receipts. Butchers paid \$9.50 for best veals at hand. That price 25c better than yesterday's range. Business terminated early under firm close. Values today denoted even rates with Monday.

Hogs.
Hog values made another big advance today. Continued light runs and good demand responsible. 1100 hogs made up the total receipts—quality good. Heavy packing at \$6.75 had least improvement. Majority of other kinds jumped 10¢ to 15¢. Medium and handy hogs were active at \$6.80 to \$6.85. Good pigs up 15¢ to 25¢; best sold at \$6.25 to \$6.50. Quick clearance made at firm rates. Prices today 25¢ to 35¢ above Monday's levels. Today's selling denoted best range since October.

Sheep and Lambs.
Offerings in sheep lamb continued very light. Only 450 head were on sale—quality just fair. Few prime sheep or choice lambs available. Good inquiry noticed for fat handy finish.

The emphatic edict reads:
"Take notice! The young gentlemen and ladies who have been in the habit of spending the evening, in whole or in part, at the rehearsals of the Kappi Pi Kappa band, are respectfully apprised of the fact that the members of the band are there for business only, and it is not intended that these rehearsals shall afford a trying place for these young persons not associated with the band. Any and all loafing in and around the M E church on band nights must be discontinued, as such, sooner or later, is sure to become a nuisance. By order of the board of trustees, J. H. Yarnell, chairman."

Methusala was alright, you bet. They say he would be living yet had he taken Rocky Mountain Tea. For a good old soul was he. C. E. Anderson

NO SPOONING IN SOMERSET WHILE THE BAND PLAYS
New Lexington, Feb. 21.—The band has been played at Somerset. The youthful lovers of the former county seat have formed a habit of using the rehearsal room of the Kappi Pi Kappa band as a trysting place and the trustees of the M. E. church, in the basement of which the band rehearses, have called a halt on this puppy love.

Another bold attempt to foil Sir Cupid!

Does it not appear reasonable music and love should go hand in hand? Why, then, this repugnance to Cupid, and especially during Leap Year?

Experience is the modern instructor. Profit by the experience of others. It may save your life. The experience of friends and neighbors. The testimony of Coshocton people will bring renewed encouragement. Here is a case in point: James Duncan, 215 South Lawn-av., Coshocton, Ohio, says: "I know that Doan's Kidney Pills live up to the claims made for them. The passages of the kidney secretions were scanty and often pained in passage. The kidney secretions also contained sediment and my back ached almost all the time. Finally I saw Doan's Kidney Pills advertised at Siegrist & Williams' drug store and used them. They gave me great relief, making me feel better in every way."

THREE DEATHS IN NEWCOMERSTOWN

Newcomerstown, Feb. 24—Three deaths of Newcomerstown people have occurred in the last three days. The funeral services for Amos Yingling will be conducted by the Rev. Mr. Haverfield at 1:30 p. m., Sunday in the M. E. church.

James King, 82, who for many years lived on a farm near here, died Thursday afternoon at 2 o'clock. He is survived by three sons. The funeral services were held Saturday afternoon.

The body of Mrs. Sarah Stoner who died Thursday in Cleveland was brought here Saturday. Rev. Haverfield conducted the funeral services at the M. E. church Saturday afternoon. Mrs. Stoner was a former resident here.

BETTER THAN SPANKING
Spanking does not cure children of bed-wetting. There is a constitutional cause for this trouble. Mrs. M. Summers, Box 19, Nure Dame, Ind., will send free to any mother her successful home treatment, with full instructions. Send no money, but write her today if your child has trouble in this way. Don't blame the child, the chances are it can't help it. This treatment also cures adults and aged people troubled with urine difficulties by day or night.

SIX HOGS BURN AT TUSCARAWAS

Tuscarawas, Feb. 24—Six hogs were burned in a fire which destroyed a building belonging to Ben L. Schindler of near Tuscarawas at noon Friday. The meat was being smoked in a corner of the building, and the fire originated from the smoke blaze. The building was a two-story structure used for a milk and wash house. The building was totally destroyed involving a loss of \$200 or more. It was only by desperate work that the residence was saved from the blaze, as it was but a few feet from the burning structure.

FEW ARRESTS IN THE LAST WEEK

Zanesville, Feb. 24—It would appear as though a wave of morality were sweeping over Zanesville judging from the scarcity of arrests made by the police. Since Tuesday there has been but one offender apprehended and he was a poor unoffensive plain drunk.

GROCER MISSING

Cambridge, O., Feb. 24—Friends of W. A. Johnson, a well known grocer in Marietta avenue, south side, who had left on Sunday evening ostensibly on a short business trip, were astounded yesterday morning when they learned that a letter had been sent by Johnson from Chicago in which he stated that he would not return to Cambridge. His present whereabouts are not known.

The sudden departure of Mr. Johnson is unexplained in the letter and no sufficient cause for his action can be assigned by his relatives and many friends in this city. He left his family and a thriving business, which apparently was not seriously involved financially.

On Sunday evening Johnson left Cambridge, telling his wife, it is said, that he intended to go to Zanesville and then to Marietta, where he expected to meet his prospective partner. Nothing more was heard of him until the letter was received from Chicago Wednesday.

DIES AS DOCTOR MIXES MEDICINE

New Philadelphia, Feb. 24—James W. White, a news dealer in South Broadway, became suddenly ill at his home at 2 o'clock Thursday evening and telephoned for a doctor. While the doctor was mixing some medicine for the man's heart White died. He is survived by a widow and seven children.

Almost Lost His Life.
S. A. Stid, of Mason, Mich., will never forget his terrible exposure to a merciless storm. "It gave me a dreadful cold," he writes, "that caused severe pains in my chest, so it was hard for me to breathe. A neighbor gave me several doses of Dr. King's New Discovery which brought great relief. The doctor said I was on the verge of pneumonia, but to continue with the Discovery. I did so and two bottles completely cured me." Use only this quick, safe, reliable medicine for coughs, colds, or any throat or lung trouble. Price 50 cents and \$1.00. Trial bottle free. Guaranteed by C. E. Anderson and C. W. Ferguson of Roscoe.
